

SOLUTIONS DEPICTED

Solution 1

- VESA mount: SPV1101
- Peripheral swingarm SPV2102 (payment)
- Peripheral mount for payment terminal: INGD5000-MH

Solution 2

- VESA mount: SPV1101

Solution 3

- VESA mount: SPV1104
- Peripheral hardware VESA mount: SPV3301

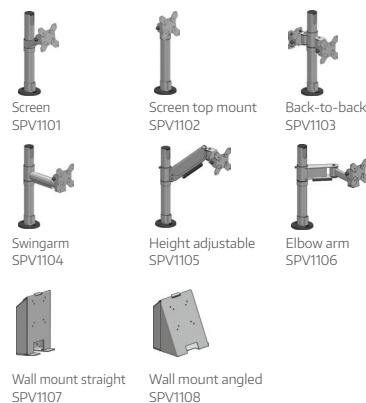

BENEFITS

- All solutions are VESA 75/100 compliant
- Upgradable, modular mounting system
- Workspace optimisation and enhanced accessibility
- Improved ergonomics for customers and staff
- Cost effective installation
- Protection and retention of hardware
- High return on investment (ROI)
- Like-for-like replacement within the warranty period

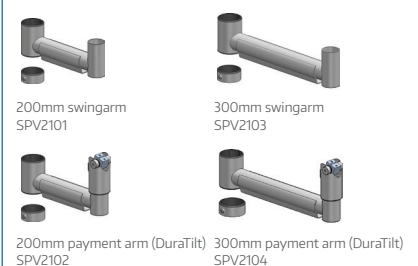

SpacePole Essentials is a product range appropriate for technology partners and end users alike. SpacePole Essentials offers a comprehensive range of features and functionalities configured from standard parts and accessory ranges suitable for all EPOS and in-store retail applications.

The concept behind SpacePole Essentials is very straightforward and only requires you to select your VESA mounting and required functionality, pick the cable managed peripheral swingarm and finally match your peripheral hardware to configure the ideal solution.

SELECT YOUR VESA MOUNT:
