

Mounting solutions for FIRST DATA CLOVER MINI

SpacePole Payment

In 2004, when EMV-Chip and PIN was launched in Europe, SpacePole Payment solutions from Ergonomic Solutions became the de-facto payment standard. SpacePole was chosen for the initial pilot sites and we have subsequently provided more than two million payment mounting solutions globally. SpacePole is proven in the retail sector to last through three technology refreshes.

FEATURES & BENEFITS

DuraTilt®

- Patented tilt technology: Contains 13 individual parts and is tested through 250,000 cycles and proven in retail installations without the need for tightening or lubrication. Comes with a five year warranty.
- Ergonomically adjustable: Range of tilt which meets all recommended ergonomic requirements for disability access and reduces the need to remove the payment terminal from the stand.

Clover Mini plate

- Compatible across all four payment terminals mounting solutions.
- Plates offer a unique system of multiple mounting positions for any environment at the point of sale.
- Key hole mounting design securely holds the terminal in place.

Rotation

- Rotates from the customer side to the cashier side.
- Intelligently designed 'anti-wobble' plastic sleeve provides smooth operation and simplifies installation in regard to rotation slot alignment.

Simple & cost-effective upgrades

- A fully upgradeable system, providing retention and protection of any hardware investment.
- Multiple, cost-effective upgrade options.

Cable management

- Full cable management.
- Plastic grommet to ensure cable is not damaged by the metal.
- Limited head rotation to ensure cables are not stressed.

Additional design features

- Plastic flange cover to hide fixings.
- Simple and quick to install.
- Complete boxed solutions, including fixings and mounting instructions.
- Choice of colour -nn: for white use suffix -32; for black use suffix -02

FDC101-D-nn

This mounting solution features our patented DuraTilt technology that has been tested through 250,000 cycles. DuraTilt enables tilt (60°) and rotation (210°) and features unique ergonomic design. This definitive solution ensures the smooth operation of the terminal, whilst the internal cable management protects the cables.

FDC101-DM-nn

UPGRADE SOLUTION:

If a SpacePole solution is already in place, just fit the DuraTilt upgrade bracket featuring all the benefits mentioned above

FDCLOVER002-nn

To mount your payment terminal on a glass or marble counter use the Universal solution. This can also be attached to a drill-able surface by detachable bolts.

FDCLOVER003-nn

If counter space is scarce, why not wall mount your payment solution?

SpacePole ClickSafe

As a leading supplier of payment terminal mounting solutions, we are ideally positioned to provide expertise on the physical security aspects of the PCI DSS directives that underpin the standards implemented by the terminal manufacturers. All of our SpacePole payment solutions adhere to the latest PCI DSS physical security best practice compliance directives.

SpacePole ClickSafe is a security lock for payment terminals and mobile devices that helps protect digital information, prevent data loss and further secure hardware. ClickSafe has been specifically engineered to withstand the rigours of a potentially hostile environment and protect payment terminals and hardware from abuse and theft. The solution fits all physical security requirements and complies with PCI best practices. ClickSafe features ease of installation and provides the unique possibility of integration with existing SpacePole products enhancing flexibility and security.

Ergonomic Solutions

Ergonomic Solutions is the leading global provider of innovative and ergonomically designed technology mounting, mobility and security solutions for a wide range of static and mobile technology hardware at the Point of Sale, Point of Payment and Point of Service. Over 20 years of deep understanding of the evolution of technology hardware, ensures that the latest generation of our mounting solutions enables technology to provide a combination of best practice in customer experience and demonstrable return on investment in a wide range of static and mobile applications.

Our services include design and development for customised solutions and our influential Ergonomics Consultancy has advised many of the world's leading retailers. In addition, we are also an active member of the PCI Security Standards Council. Creators of SpacePole, Ergonomic Solutions is the global market leader, having supplied over 5 million unique SpacePole installations – and in the retail sector we supply over 60% of the global top 50 retailers, making our technology mounting solutions the preferred choice.
