CHARGING & COMMS STAND FOR VERIFONE e355

MERGING MOBILE TECHNOLOGY WITH SECURE CHARGING STAND

With many retailers using neat mPOS devices for fixed as well as mobile use, ENS charge and comms stands ensure the device is always ready to go and gives retailer the option to use fixed communications as an alternative to the Bluetooth/WiFi capabilities of the payment device.

Supporting Verifone e355 mPOS PINPad, ENS stands include a neat, fixed angle version as well as stands that offer tilt and swivel. Both options use the same smart engagement mechanism to guide the device onto the stand and into the charging position.

When associates need to go mobile, the device can be removed quickly and easily. For installations that require the device to be secured and not used as a mobile device, a simple security screw ensures the device is locked in place.

- ✓ Integrated charging and communication
- ✓ Easy release for mobile use
- ✓ Ability to secure device to stand for fixed use
- ✓ Various mounting options
- ✓ Easy Installation - mount with either screws or a glue pad
- ✓ PCI and ADA compliant

TECH SPEC

367-4689

H: 8cm L: 16.25cm W: 9.3cm
(with e355 fitted)

367-4946

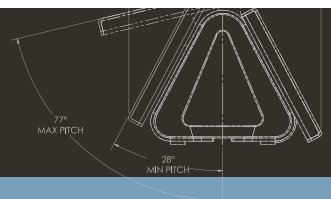

H: 18cm L: 12.7cm W: 8.9cm
(with e355 fitted)
