

# VKP558

Extremely compact and versatile ticket printer

## Key points

### Ergonomic design

for more secure ticket delivery

### RGB LED

and integrated cutter

### Easy inspectable

paper path

### Easy paper load

with no loose spindle

### Centurion Security Suite

for authentication of tickets

## Markets

- Gaming machines
- Queue management systems
- Vending machines
- Self-service kiosks

VKP558 is an extremely **compact and versatile ticket printer**, for **easy installation** and panel mounting. The device is equipped with black plastic bezel, a highly reliable total/partial cutter and easily inspectable paper path. VKP558 has the same panel fixing points of TG02H and the same interfaces and emulations. The product comes with a practical drop-in cradle for paper roll and features the new **Centurion Security Suite**, a software dedicated to the gaming market to authenticate winning tickets and discard the fake ones.
