BOS™ Device Finder Introduction

What is BOS™ Device Finder

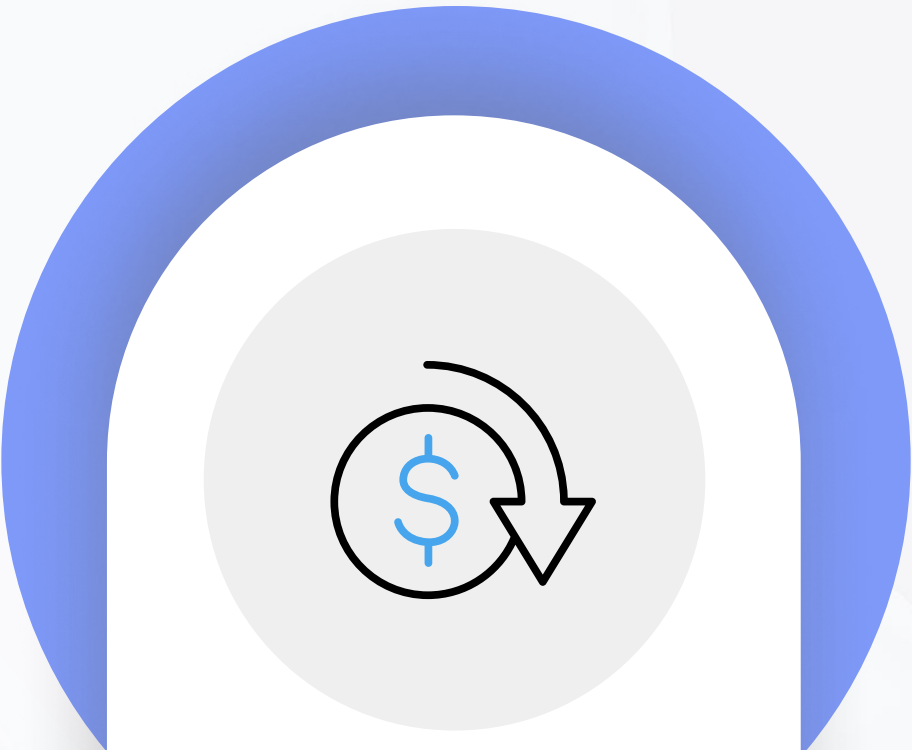

Approximately 5% of company-owned devices are reported lost or stolen annually, resulting in significant damage and financial loss
- BOS™ Device Finder is the perfect Bluebird solution for this problem.

4 Major Features

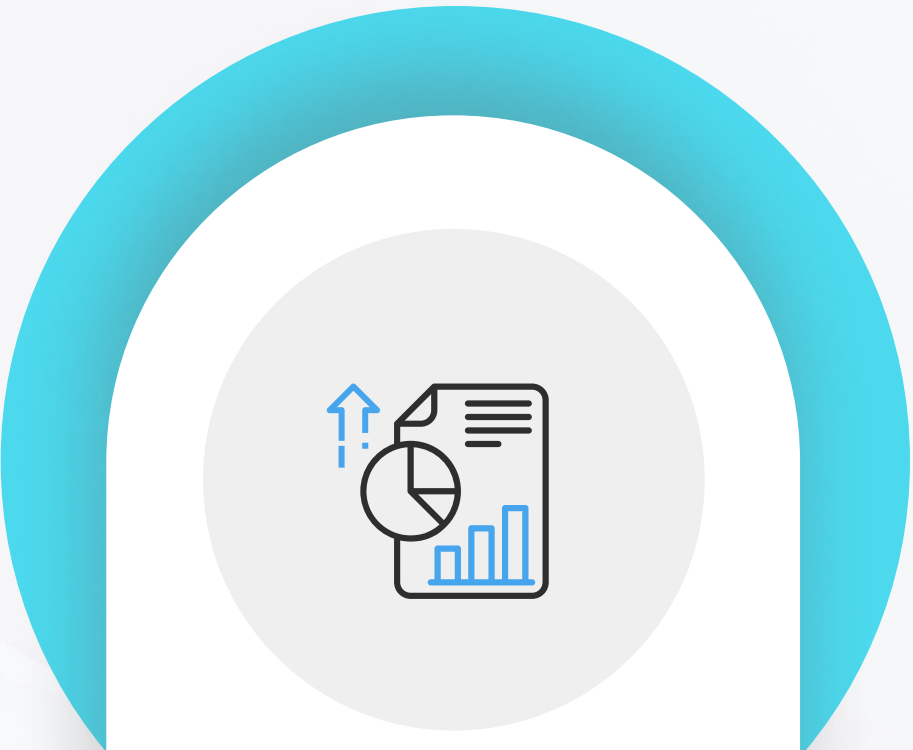

Device Availability

Maximize device availability and value

Lower Tracking Costs

Reduce the cost of tracking devices

Boost Productivity

Maximize workforce productivity

Maximize ROI

Maximize Return on Investment (ROI)

Why BOS™ Device Finder?

Why BOS™ Device Finder?

If you use BOS™ Device Finder, it is able to find the lost devices even if they have been powered down. Device with BLE Battery can be found for a certain period of time even when the device is powered off.

6 Major Benefits

Easily find all of your devices

➡ Locate misplaced devices with the Geiger-counter style Proximity Meter

Devices are now visible in real time

➡ View the status of all devices; identify 'at risk' devices with a low battery that need to be located before they are no longer visible

No new infrastructure to buy

➡ No need to purchase a server, additional APs or additional BLEs

Know when to act with alerts

➡ Receive alerts when battery levels and reporting times exceed your thresholds

Worry-free server management

➡ With Managed Services included, Bluebird takes care of the server, from setup and management to maintenance and monitoring

No need to check all workers to prevent lost

➡ Manager doesn't have to check every workers if they returned the devices when they are leaving

Why BOS™ Device Finder?

Why BOS™ Device Finder?

If you use BOS™ Device Finder, it is able to find the lost devices even if they have been powered down. Device with BLE Battery can be found for a certain period of time even when the device is powered off.

**Scalable
for virtually
any sized
deployment**

| Grows with your business

Every server instance tracks up to 100,000 devices in up to 5,000 sites

| Licensing term options

Licenses are available for 1 / 3 / 5 years

| Complete Managed Service

Subscription provides everything you need to configure, deploy and maintain the service — from technical support to managed services

Industrial application field

Warehouse

BOS™ Device Finder makes your management in warehouse much easier - it is the perfect solution for preventing device loss.

Inventory Management
Staff ID Management

Asset Management
Facility Management

Industrial application field

Postal Carriers/Courier Drivers

Manage your Delivery by BOS™ Device Finder. Bluebird's solutions effectively support driver-customer interactions, and have a positive impact on order accuracy, delivery times, and sales.

Staff ID Management
Asset Management

Facility Management
Inventory Management

If you want to introduce BOS™ Device Finder, you should check the customers:

3. Technical Requirements

- ✓ When they want to make sure that workers are returning / charging the device properly after work
- ✓ If they are the companies that want to understand the current status of the device and operate it efficiently with its asset

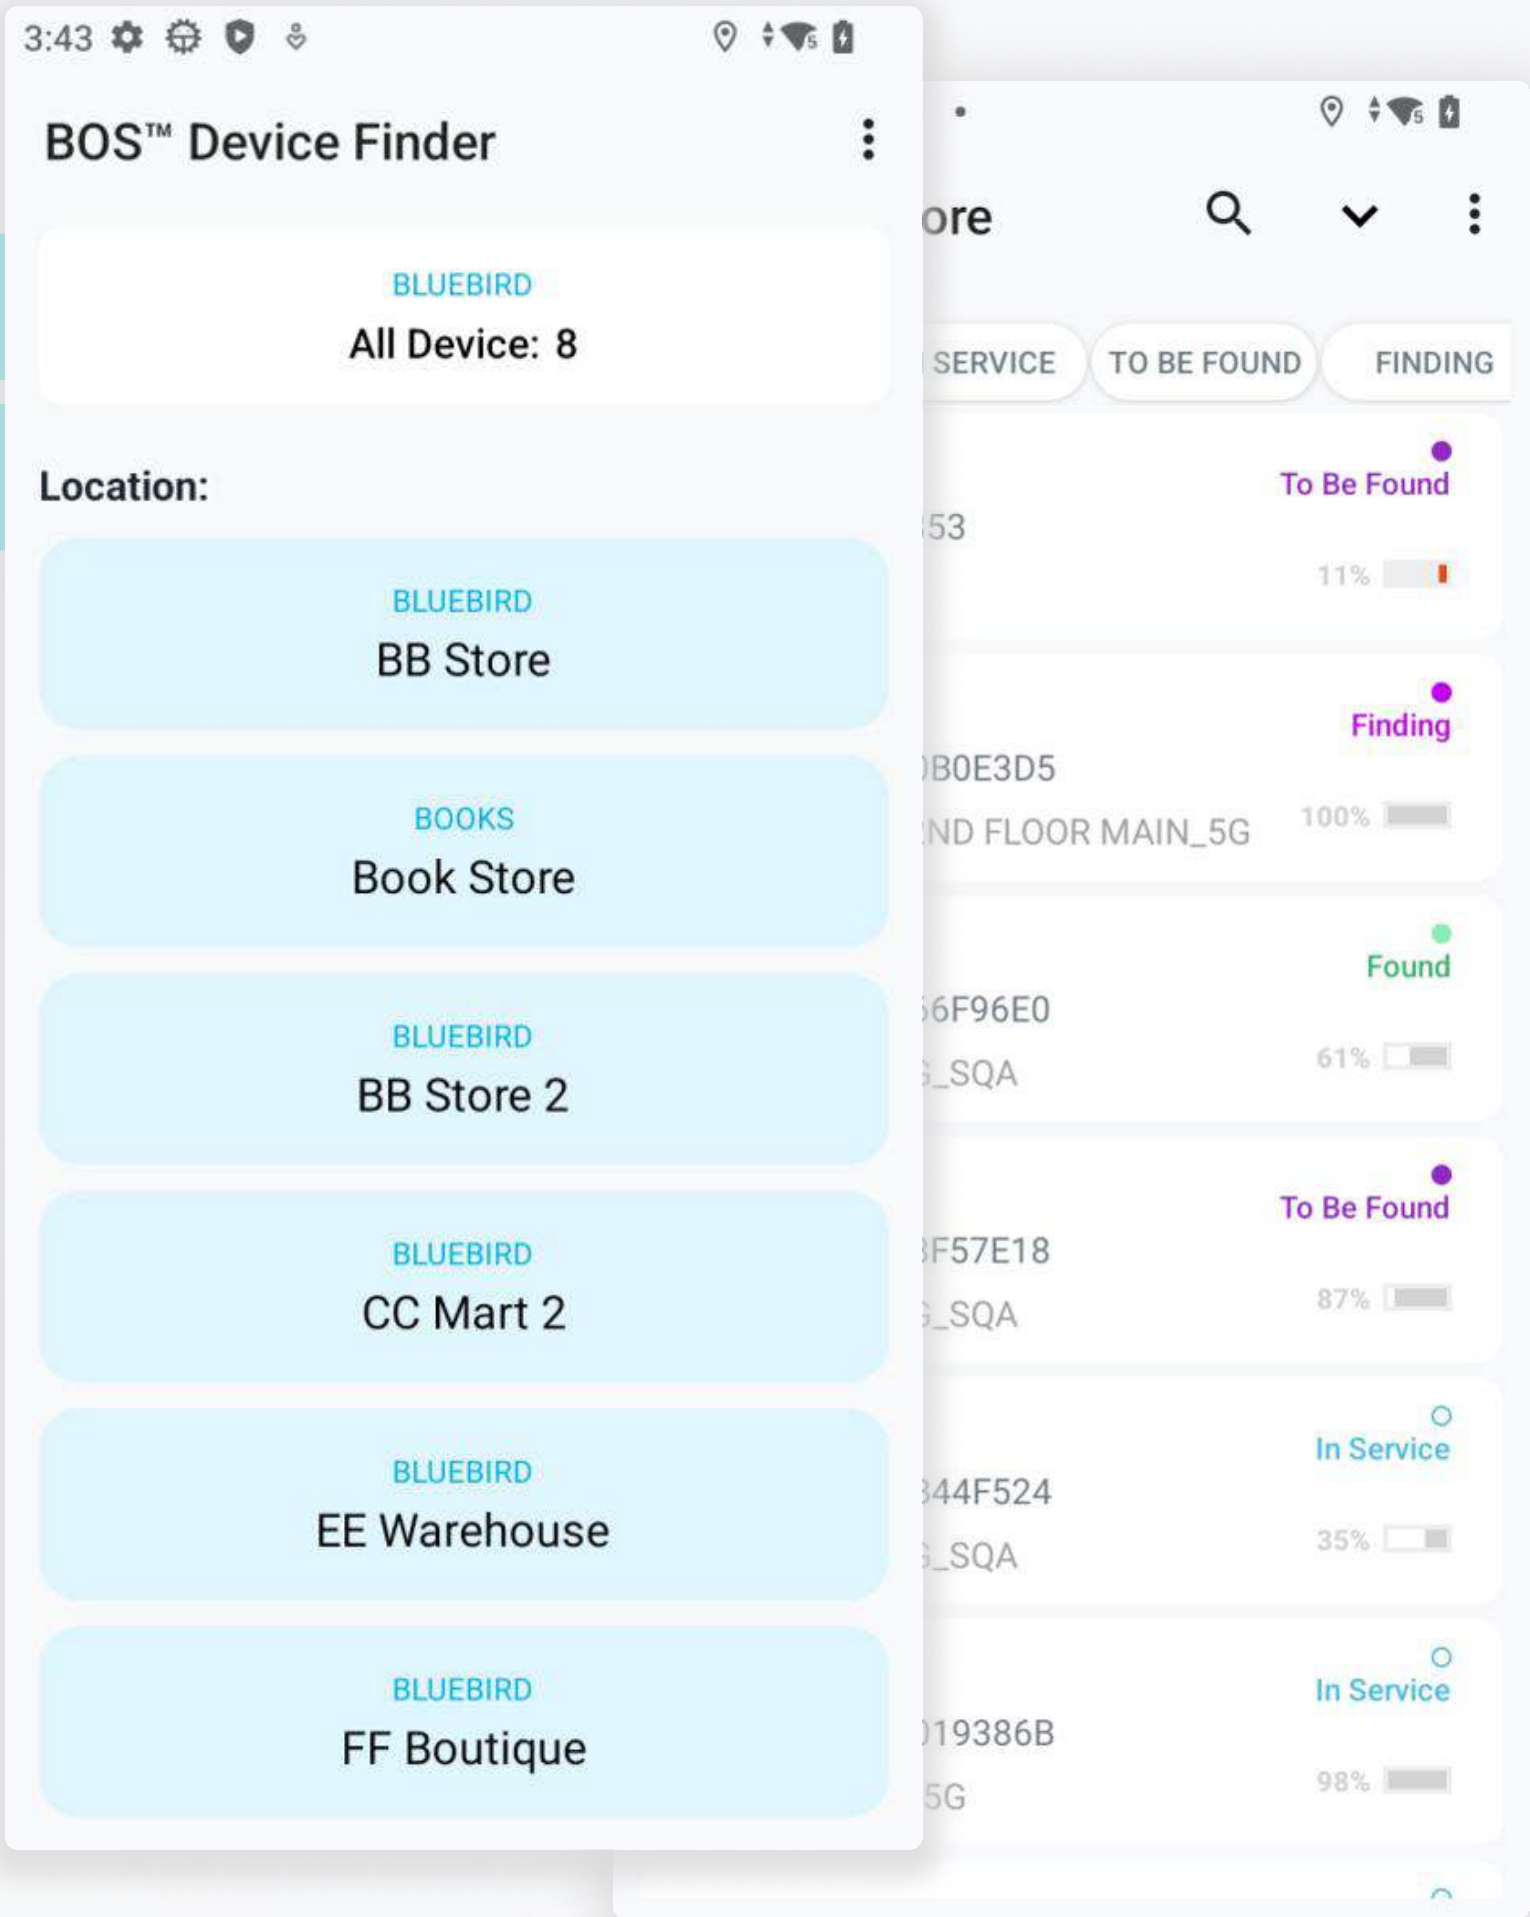

How to use BOS™ Device Finder

Admin

If Admins want to check the locations of multiple devices, they just need to open the BOS™ Device Tracker Web Portal & Application.

Warranty/Service Program

Software Portfolio

Bluebird Software helps you manage not only application development, but also device security, productivity improvement, and retention.

Development

**SDK for Android™**
Bluebird SDK enables to take full advantage of the purpose-built capabilities our devices have to offer

**RFID Development Kit**
Reduce application development & testing costs

Deployment

**BOS™ Extension**
Security & Configuration features beyond Android Enterprise

**BOS™ Provisioning**
Automate mass configurations with barcode scanning

**Bluebird Zero-Touch**
Automate enterprise device EMM registration for immediate use

**BOS™ TMS**
BOS™ TMS securely manages global Bluebird payment terminals with end-to-end control

Secure & Manage

**BOS™ Kiosk**
Protect your device from unauthorized app use and device settings changes

**AER**
Android Enterprise Recommended

**BOS™ Secure Care™**
Secure my devices long enough to meet TCO Goals

**BOS™ Device Finder**
Easily find and track your lost device by using BLE signal

Productivity

**BOS™ VoIP / PTT**
Staff collaboration tools with voice, messaging and location

**BOS™ Wi-Fine**
A Wi-Fi Diagnostics tool with device level & Aggregate view of Wi-Fi network performance

**BOS™ Keyboard**
Offer navigation options that reduce errors with effective key entry

**BOS™ Onescan**
Extensive data capture with multiple barcode scanning support

Maintenance

**BOS™ PowerManager**
Dashboard tracking health & charge state for Bluebird Mobile device battery pool & initiate admin actions

**BOS™ Data Tune™**
Bluebird SDK enables to take full advantage of the purpose-built capabilities our devices have to offer

**BluebirdCare™**
Achieve 3, 4 or 5 year availability & Service options

**BOS™ OTA**
Automatically manage OS and security patch updates

**BOS™ Device Finder**
Staging and managing devices with BOS™ Device Finder allows for configuring devices and updating firmware across multiple devices with a single click

Warranty/Service Program

Bluebird Care™
